

## Adventure Day Camp Week 1 - "Earth Day, Every Day" June 21 - June 25

---

WOW! What an awesome week we had! Everyone learned a lot about how to take care of our Earth. Campers put all they learned into action by serving at the Phillies game as part of the Phillies "Red goes Green" program. We are very proud of how hard the campers worked during the game.

The campers continued to make us proud as they completed a 3 mile hike around the lake at Parvin State Park led by T. Peter! Of course along the way we picked up trash as well as learned more about nature. We loved seeing the turtles, frogs, birds nest, and dragon flies. The group favorite seemed to be picking and eating blueberries right off the bush! T. Peter explained to the campers how to know if they were safe to eat or not, this certainly was a fun and educational field trip.

The fun will continue next week when we venture in learning about the Spanish-Speaking World. T. Nicole and T. Sophie will be taking us on this adventure. There are still a couple of openings if you will like your child to join the fun.

We will also have our first mini camps next week; they will be Bugs, Bugs, Bugs, and All-Star Basketball Camp.
